UHS Lahore VPN Connection Guide
(For Digital Library Access)

UHS IT Department has established a VPN facility to provide its users an access to digital library from other networks (DSL, Dialup, Cable Network, wireless and, any other network that are used to connect their computer with internet at home).

Configuration for Mac:

Step 1. Open System preferences and click onto Network.

Step 2. Click the + button on the network connections pane.
Step 3. From the drop down menu select VPN followed by PPTP then click Create.

Step 4. Enter the Server Address field and your account Username (your registered email address) in the Account Name field and Click the Authentication Settings.
Step 5. In Authentication Settings, enter your Password (VPN Password and click OK.

1. Click the Advanced button.
2. Tick Send all traffic over VPN connection, press OK.
3. Click Apply.
4. Leave the Show VPN status in menu bar box ticked and press Connect.
5. You should be able to Connect/Disconnect to the server from the menu bar.
