

BDS FIRST PROFESSIONAL EXAMINATION 2007

ORAL BIOLOGY AND TOOTH MORPHOLOGY

Table of Specifications (TOS)

<i>Topic</i>	<i>%</i>	<i>SEQs</i>	<i>MCQs</i>
Oral Anatomy	15%	2	6
Muscles Bones Salivary glands TMJ Nerve and vascular supply Eruption of teeth Articulation of teeth Age changes			
Oral Embryology	10%	1.5	4
Development of embryo Development of skull, face, tongue, jaws, teeth Development of dentition Development of occlusion Common anomalies			
Oral Histology	43%	7	20
Histology of enamel, dentin, pulp, cementum, PDL, alveolar process, mucosa, salivary glands, TMJ			
Oral Physiology	10%	1.5	5
Saliva Taste, smell, mastication, swallowing, pain, speech bone growth			
Tooth Morphology	20%	3	9
Anatomy of primary and permanent teeth Timing and sequence of eruption			
Laboratory Assignment	2%		1
Histological methods			
Total	100%	15	45
