(15 Marks at Each Station)

Total marks

90

- There will be Two OSPE Sessions each day; 1st Session and a 2nd Session.
- In each Session Two OSPE Cycles will be run.
- Different questions will be used in each session.

General Rules of Conduct of ENT OSPE 2008

- 1.** Practice / Mock OSPE Test should be conducted in each center before the commencement of MBBS Third Professional Annual 2008 Examinations (October 2008).
- 2.** To minimize the possibility of leakage the Internal and External Examiners can choose packets for each day and each session randomly from the set of OSPE Question Packets provided for the entire examination.
- 3.** In case any problem is encountered at any center in the construct / content of any OSPE Question the Internal and External Examiners will have the jurisdiction / authority to make amendments / changes accordingly with written and informed justification with no change in Weightage and Marks of the station.
- 4.** The Internal and External Examiners at each center depending on the Clinical Material / Patients available will set up the 6 Interactive OSPE Stations for each cycle and will provide a comprehensive detail of the same for each cycle to the Examinations Department.
- 5.** Depending on the nature of the Interactive Stations Checklists and Rating Scales will be developed by the Internal and External Examiners and provided to the two observers.
- 6.** The Internal and External Examiners at each center will co-opt observers from the local faculty.
- 7.** Marking of OSPE Questions will be done the same day and the marks will be transferred to the Award Lists.
- 8.** The OSPE Material for any day including the Response Sheets and the Award Lists will be sent back to the Examinations Department the same day.

Conduct of OSPE

- The Batches for OSPE will be 20 students strong per Clinical Unit per session.
- All OSPE Questions will be sent by the Department of Examinations UHS in sealed confidential envelopes to each center clearly marked for each day of Examination and shall be kept secure in our Regional Safety Lockers at respective centres.
- The sealed confidential envelope containing the OSPE questions for that particular day will be collected from the UHS regional safe locker by both the Internal and External Examiners in the presence of the Principal or his nominee and the Regional Coordinator up to Two hours before the commencement of Examination.
- Each packet of examination material will contain for that particular day the complete set of Static OSPE questions with keys and instructions for the candidates and the examiners.
- The Practical Answer Books for Static Stations will be sent separately to each centre one for each candidate.
- The candidates are to record their responses on the Practical Answer Books which will be collected at the end of the OSPE session.
- Each batch of the candidates while waiting for the OSPE in the waiting area should be briefed about the OSPE process and the layout of the OSPE hall. They are not to bring any mobile phones or any other technology that could be used for communication within the premises of the examination centre.
- Any student found having mobile phone or any other electronic medium should be removed from the OSPE examination centre and an Unfair Means Case registered against him/ her.
- All candidates will complete a mandatory “Feedback Proforma” and deposit the same confidentially in the sealed collection boxes provided.
