UHS Lahore VPN Connection Guide
(For Digital Library Access)

UHS IT Department has established a VPN facility to provide its users an access to digital library from other networks (DSL, Dialup, Cable Network, wireless and, any other network that are used to connect their computer with internet at home).

Configuration for Windows 10:

1. To start configuration, go to the Start Menu and up to the Setting.

2. In the Setting list, open Network & Internet.

3. In the Network & internet window, select VPN and click on the option Network and sharing Center.
4. Select Set up a new connection or network.

5. Select connect to a workplace and click next

6. Select use my internet connection (VPN)
7. At the following window, you will need to type in the Internet address and the Destination names as follows:

Internet address – xxx.xxx.xxx.xxx
Destination name – UHS VPN and click create.

8. Now back at the Network and sharing center window, click on Change adapter settings.

9. You will now be presented with a list of network connections on your computer. Right-click on UHS VPN and select connect/disconnect from the menu.
10. At the following window, you will need **Username** and **Password** and then click ok.

11. Wait for connecting.

12. Now connected.
