

UNIVERSITY OF HEALTH SCIENCES, LAHORE

Agenda of 8th of Meeting of Speciality Advisory Committee in **Paediatric Surgery**, for review of MS synopses, to be held on **Friday, 20th February, 2026** at **10:00 A.M.** in, University of Health Sciences, Lahore.

Agenda

To Review Synopses of:

Sr. #	Name of Candidate & Session	Supervisor	Date/ Number of Submission	Title
1.	Dr. Fatima Babar	Dr. Mahboob Ahmad Bhutta, Assistant Prof. of Pediatric Surgery, University of Child Health Sciences, Lahore	17-Jul-25	Zinc oxide+egg albumin paste vs zinc oxide alone for prevention of peristomal skin related complications: a randomized control trial
2.	Dr. Faiza Kiran	Dr. Mahreen Zahra Khan, Associate Professor of Pediatrics Surgery, University of Child Health Sciences, Lahore	17-Jul-25	A randomized controlled trial of oral propranolol versus combination therapy of oral propranolol and topical timolol for treatment of infantile hemangioma
3.	Dr. Muhammad Waqas	Prof. Dr. Muhammad Kashif, Professor of Pediatrics Surgery, Children Hospital and Institute of Child Health, Multan	18-Jul-25	Comparison of outcomes of interval appendectomy with early appendectomy in treatment of appendicular mass in children from 05 to 12 years of age
4.	Dr. Nisar Ahmad	Prof. Dr. Hamza Sohail, Prof. of Pediatrics Surgery, Institute of Child Health, Faisalabad	15-Aug-25	Comparison of the effectiveness of ERAS protocol (Enhanced Recovery After Surgery) versus traditional care in pediatric ileostomy Reversal surgery
5.	Dr. Aizaz Haider Khan	Prof. Dr. Muhammad Riaz UL Haq Prof. Pediatric Surgery Sahiwal Medical College, Sahiwal	24-Sep-25	Comparison of Single Stage Sphincter Sparing scarless procedure (5s) versus single stage anterior sagittal anorectoplasty (ASARP) for Management of Rectovestibular fistula (RVF)
6.	Mr. Maria Safdar	Prof. Dr. Muhammad Kashif, Professor of Pediatrics Surgery, Children Hospital and Institute of Child Health, Multan	03-Oct-25	Comparison between vesicolithotomy and transurethral cystolitholapaxy in pediatric male patients in terms of complications
7.	Dr. Aneeqa Mumtaz	Prof. Dr. Muhammad Kashif, Professor of Pediatrics Surgery, Children Hospital and Institute of Child Health, Multan	04-Dec-25	Comparison between post-operative outcomes of unilateral cleftlip repair using absorbable sutures vs Non absorbable sutures for skin closure

8.	Dr. Owais Bashir	Dr. Muhammad Ramzan Bhutta, Associate Prof. of Pediatric Surgery, Quaid-E-Azam Medical College, Bahawalpur	8-Dec-25	Efficacy of table salt versus copper sulphate for the treatment of umbilical granuloma: A comparative study
9.	Dr. Naznina Nawaz	Prof. Dr. Muhammad Kashif, Professor of Pediatrics Surgery, Children Hospital and Institute of Child Health, Multan	17-Dec-25	Comparison of Post-Operative Outcomes of Modified Millard and Le Masurier's Technique of Unilateral Cleft LIP REPAIR
10.	Dr. Muhammad Ahmad Liaqat	Prof. Dr. Hamza Sohail, Prof. of Pediatrics Surgery, Institute of Child Health, Faisalabad	17-Dec-25	Comparison of post-operative pain control and hospital stay in ileostomy reversal patients receiving iv analgesia alone versus iv analgesia combined with regional block
11.	Dr. Umar Afsar Shah	Prof. Dr. Muhammad Saleem, Professor of Pediatric Surgery, University of Child Health Sciences, Lahore	22-Dec-25	Comparison of effects of INJ Bleomycin vs Inj Doxycycline in lymphatic malformation

ADDENDUM AGENDA

Sr. #	Name of Candidate & Session	Supervisor	Date/ Number of Submission	Title
12.	Dr. Javed Iqbal	Prof. Dr. Muhammad Kashif, Professor of Pediatrics Surgery, Children Hospital and Institute of Child Health, Multan	31-Oct-25	Comparison of outcome in distal penile hypospadias with and without urethral stent in tabularized incised plate urethroplasty in paediatric age group

Note:

*All proposed Supervisors who do not have Supervisory Certificate as per UHS eligibility criteria are requested to complete their deficiencies mandatorily within **six months**, failure of which may lead to deferral of synopsis of their candidate(s) in the subsequent submission.*

UNIVERSITY OF HEALTH SCIENCES, LAHORE

Agenda of 7th of Meeting of Speciality Advisory Committee in **Paediatric Surgery**, for review of MS synopses, to be held on **Tuesday, 22nd July, 2025** at **11:00 A.M.** in, University of Health Sciences, Lahore.

Agenda

To Review Synopses of:

Sr. #	Name of Candidate & Session	Supervisor	Date/ Number of Submission	Title
1.	Dr. Maria Safdar 2020-21	Prof. Dr. Muhammad Kashif, Professor of Paediatrics Surgery, Children Hospital and Institute of Child Health, Multan	18-Jun-25/ 2	Comparison between vesicolithotomy and transurethral cystolitholapaxy in paediatric male patients in terms of complications
2.	Dr. Hajra Amin 2023-24	Dr. Farrukh Mehmood Sattar, Assistant Professor of Paediatric Surgery, The Children's Hospital & University of Child Health Sciences, Lahore	19-Jun-25/ 1	Comparison outcome of wound closure techniques with and without negative pressure in stoma reversal wounds
3.	Dr. Huma Imtiaz 2022-23	Dr. Fatima Naumeri, Associate Professor of Paediatric Surgery, Services Institute of Medical Sciences, Lahore	3-Mar-25/ 1	Effect of mobile phone video games on preoperative anxiety and post-operative pain in children undergoing elective surgery
4.	Dr. Javed Iqbal	Prof. Dr. Muhammad Kashif, Professor of Paediatrics Surgery, Children Hospital and Institute of Child Health, Multan	14-07-2025	Comparison of outcome in distal penile hypospadias with and without urethral stent in tabularized incised plate urethroplasty in paediatric age group

Note:

*All proposed Supervisors who do not have Supervisory Certificate as per UHS eligibility criteria are requested to complete their deficiencies mandatorily within **six months**, failure of which may lead to deferral of synopsis of their candidate(s) in the subsequent submission.*

UNIVERSITY OF HEALTH SCIENCES, LAHORE

Agenda of the Meeting of Speciality Advisory Committee in **Paediatric Surgery**, for review of MS synopses, to be held on **Tuesday, 30th of January 2024** at **02:00 p.m.** in Room# 40, University of Health Sciences, Lahore.

Sr. #	Name of Candidate & Session	Supervisor	Date of Submission	Title
1.	Dr. Hammad Manzoor 2022-23	Prof. Mazhar Rafi Jam Head of Peads Surgery Dept Sheikh Zayed Medical College, RY Khan	10-Jul-23	Comparison of gentamicin-normal saline irrigation vs no irrigation for prevention of SSIs in colostomy reversal wound in pediatric surgery
2.	Dr. Saba TAbbassum 2021-22	Dr. Muhammad Riaz ul Haq Associate Prof of Pediatric Surgery Sahiwal Medical College, Sahiwal	28-Aug-23	Outcome of single versus double dartos flaps interposition in snod grass urethoplasty, a single centre study
3.	Dr. Hafiz Usman Azeem Mughal 2022-23	Dr. Muhammad Bilal Mirza Associate Prof of Pediatric Surgery University of Child Health Sciences, Lahore	17-Oct-23	Outcome of stoma placement within the main laparotomy wound vs stoma placement in a separate incision: A randomized controlled trial
4.	Dr. Mujahid Ali 2021-22	Dr. Hamza Sohail Dept of Pediatric Surgery Institute of Child Health, Faisalabad	23-Oct-23	Comparison of mean hospital stay in children between ileostomy reversal patients with and without nasogastric tube placement
5.	Dr. Sajida Badar 2022-23	Dr. Muhammad Bilal Mirza Associate Prof of Pediatric Surgery University of Child Health Sciences, Lahore	24-Oct-23	Comparison of one week Re-catheterization Vs no catheterization in patients with recently developed urethrocutaneous fistula post TIP urethroplasty
6.	Dr. Umar Rehman Shad 2020-21		31-Oct-23	Comparison of staged shehata laparoscopic orchiopexy vs two-stage fowler stephen laparoscopic orchidopexy for impalpable testes
7.	Dr. Maria Safdar 2020-21	Prof. Muhammad Kashif Chishti Professor of Paediatric Surgery The Children Hospital and the Institute of Child Health Multan	26-05-2023	Comparison between vesicolithotomy and transurethral cystolitholapaxy in pediatric male patients in terms of complications
8.	Dr. Naveed Haider Shah 2019-20		04-10-23	Comparison of surgical outcomes with and without ligation of processes vaginalis for orchidopexy in pediatric age group with palpable undescended testes
9.	Dr. Rida Arshad 2019-20	Dr. Amir Hanif Associate Professor of Pediatrics, Nishtar Medical University, Multan	21-06-23	Diagnostic accuracy of pediatric appendicitis score in diagnosis of acute appendicitis taking histopathology as gold standard

UNIVERSITY OF HEALTH SCIENCES, LAHORE

Agenda of the Meeting of Speciality Advisory Committee in **Paediatric Surgery**, for review of MS synopses, to be held on **Monday, 10th June, 2024** at **10:00 A.M.** in, University of Health Sciences, Lahore.

Agenda

Sr. #	Name of Candidate & Session	Supervisor	Date/ Number of Submission	Title	Comments
	Dr. Javairia M Abdullah 2018-19	Dr. Fatima Naumeri Head of department Services Institute of Medical Sciences, Lahore	29-Feb-24 1	Early versus late urinary stent/catheter removal in tubularized incised plate urethroplasty in distal penile hypospadias	
2.	Dr. Saba Tabbassum 2021-22	Dr. Rao Riaz Ul Haq Associate Professor of Paed Surgery Sahiwal Medical College, Sahiwal	21-Mar-24 2	Comparision of laproscopic burnia technique versus laparoscopic-assisted needle herniotomy for inguinal hernia repair in female pediatric patients	
3.	Dr. Rida Arshad 2018-19	Dr. Amir Hanif Associate Professor of Paed Surgery Nishtar Medical University, Multan	26-Mar-24 3	Diagnostic accuracy of pediatric appendicitis score in diagnosis of acute appendicitis taking histopathology as gold standard	
4.	Dr. Raisa Bakhat 2021-22	Dr. Imran Hashim Associate Professor of Paed Surgery The University of Child Health Sciences, Lahore.	3-Apr-24 1	Comparison of Negative pressure wound therapy vs simple wet to moist dressing in treatment of complicated wounds in children	
5.	Dr. Mudassar Naveed 2021-22	Professor Dr. Nabila Talat Professor of Paed Surgery University of Child Health Sciences, Lahore	4-Apr-24 1	Comparison of outcomes of preoperative oral antibiotics with mechanical bowel preparation (MOABP) VS Mechanical bowel preparation alone in elective colorectal surgeries in children	

6.	Dr. Baber Shehzad 2022-23	Dr. Muhammad Bilal Mirza Associate Professor of Paed Surgery University of Child Health sciences, Lahore	4-Apr-24 1	Comparison of intracorporeal and extracorporeal kasai procedure in patients with Biliary Atresia
7.	Dr. Fahmeeda Haneef 2021-22	Dr. Muhammad Riaz Ul Haq Associate Professor of Paed Surgery Sahiwal Medical College, Sahiwal.	10-May-24 1	Comparative study of 25% dextrose water verses 5% phenol in almond oil in injection sclerotherapy for rectal prolapse among children
8.	Dr. Jafala Aslam 2022-23	Dr. Muhammad Ramzan Bhutta Associate Professor of Pediatric Surgery Quaid-e-Azam Medical College, Bahawalpur.	20-May-24 1	Comparison of injection sclerotherapy versus ekehorn procedure for rectal prolapse in children
9.	Dr. Farhat Iqbal 2018-19	Dr. Mazhar Rafi Jam Professor & HOD Paed Surgery Sheikh Zayed Medical College, Rahim Yar Khan	22-May-24 3	Comparison of loop ileostomy vs santoli in patients with complicated meconium ileus

UNIVERSITY OF HEALTH SCIENCES, LAHORE

Agenda of the Meeting of Speciality Advisory Committee in **Paediatric Surgery**, for review of MS synopses, to be held on **Wednesday, 06th March, 2024** at **10:00 A.M.** in, University of Health Sciences, Lahore.

Sr. #	Name of Candidate & Session	Supervisor	Date of Submission	Number of Submission	Title
	Dr. Urooj Hanif 2017-18	Dr. Fatima Naumeri Associate Professor Head of Department Service Institute Of Medical Sciences, Lahore.	4-Apr-23	1	Comparison of autologous platelet rich plasma dressing versus normal saline dressing in the management of heel pad injuries due to motorcycle wheel spoke

2.	Dr. Sikandar Ali Arshad 2017-18	Prof. Muhammad Ali Sheikh Head of Department Federal Postgraduate Medical Institute Lahore.	13-Jul-23	1	Accuracy of ano-rectal manometry for diagnosis of hirschsprung disease in children
3.	Dr. Umar Afsar Shah 2018-19	Prof. Muhammad Saleem Prof. of Paediatric Surgery The Children Hospital, Lahore.	27-Sep-23	1	Comparison of effects of INJ bleomycin vs INJ doxycycline in lymphatic malformation
4.	Dr. Adeel Islam 2019-20	Dr. Fatima Naumeri Associate Professor Head of Department Service Institute Of Medical Sciences, Lahore.	24-Oct-23	1	Comparison of snodgrass and snodgraft urethroplasty for distal penile hypospadias repair
5.	Dr. Atiya Gulraiz 2018-19	Dr. Iram Uzma Khalid Associate Professor Paeds Surgery Nishtar Hospital, Multan	12-Dec-23	2	Comparison of surgical outcomes between dismembered pyeloplasty with and without ureteral stenting in children with ureteropelvic junction obstruction
6.	Dr. Hassam Zohaib 2018-19	Prof. Arsalan Raza Wasti Allama Iqbal Medical College, Lahore.	8-Jan-24	1	Use of a circular stapler for the surgical Treatment of ultra-short segment hirschsprung's disease
7.	Dr. Zakir ur Rehman 2020-21	Dr. Imran Hashim Associate Professor Children Hospital Lahore.	11-Jan-24	1	Comparison between continuous versus interrupted suture technique in hypospadias repair in children
8.	Dr. Nazish Khan Ghauri	Dr. Fatima Naumeri Associate Professor Head of Department Service Institute Of Medical Sciences, Lahore.	31-Jan-24	1	Application of normal saline dressing, platelet rich plasma, and vacuum assisted closure (VAC) dressing in optimization of wounds for skin grafts in children: A randomized controlled trial
9.	Dr. Muhammad Junaid Akhtar	Dr. Mehboob Ahmad Bhutta Assistant Professor of Paediatric Surgery Children Hospital Lahore.	12-Feb-24	1	Comparison of outcome of trans-anastomotic T-tube otomy versus resection anastomosis without t-tube in jejuno-ileal atresia: A randomized control trial

UNIVERSITY OF HEALTH SCIENCES, LAHORE

Agenda of the Meeting of **Speciality Advisory Committee in Paediatric Surgery**, for review of MS synopses, to be held on **Friday, 5th November 2021** at **9:00 a.m.** in University of Health Sciences, Lahore.

AGENDA

Sr. #	Name of Candidate	Supervisor	Title
1.	Dr. Wajeaha Chaudry (Sub Committee)	Prof. Khalid Mehmood Chaudry Faisalabad Medical University/Allied Hospital, Faisalabad	Role of rectal suction biopsy with calretinin immunohistochemistry as compared to H & E staining in diagnosis
2.	Dr. Aysha Manzoor (Sub Committee)	Dr. Mehboob Ahmad Bhutta Assistant Professor of Paediatric Surgery The Children's Hospital & the Institute of Child Health Lahore	Comparison of primary soave-boley pull through vs primary trans anal endorectal pull through in patients of Hirschsprung's disease in terms of early functional outcome: A randomized control trial.
3.	Dr. Hafiz Azhar Ali (Sub Committee)	Prof. Mazhar Rafi jam Head, Department of Paediatric Surgery Sheikh Zayed Medical College/Shaiikh Zayed Hospital Rahim yar Khan	Comparison of outcomes of neonatal circumcisions by using Mogen versus plastibell techniques
4.	Dr. Salman Bajwa (Sub Committee)	Dr. Imran Hashim Assistant Professor of Paediatric Surgery The Children's Hospital & the Institute of Child Health Lahore	Comparison of outcome in early vs conventional feeding after colostomy closure in paediatric population
5.	Dr. Ghulam Mohy Ud Din (Sub Committee)		Comparison of modified pleural flap technique vs. standard anastomosis for congenital trachea-esophageal fistula repair: A randomized control trial.
6.	Dr. Fakhar-e-Jahan (Revised)	Prof. Muhammad Zubair Ahmad Professor of Paediatric surgery Quaid-e-Azam Medical College/Bahawal Victoria Hospital Bahawalpur	A comparative study to determine the frequency of conversion from trans-scrotal orchidopexy to traditional inguinal approach in low-lying testes & to compare the outcome of both approaches
7.	Dr. Yusra Balouch		A comparative study of laparoscopic needle assisted herniotomy and open herniotomy in pediatric patients
8.	Dr. Hina Naeem (Revised)		Comparative study of single layer extra-mucosal and conventional double layer colostomy closure in pediatric patients
9.	Dr. Muhammad Waqas	Prof. Muhammad Kashif Chishti Professor of Paediatric Surgery The Children's Hospital & the Institute of Child Health Multan	Comparison of pigtail catheter versus conventional chest drain for drainage of pleural effusion in terms of complications in children 01 to 12 years of age"
10.	Dr. Sajawal Yousof		Comparison of loop colostomy versus divided colostomy in terms of complications in patient with high variety anorectal malformation
11.	Dr. Ibtisam Afzal	Dr. Muhammad Amir Hanif Associate Professor of Paediatric Surgery Nishtar Medical College/Nishtar Hospital	Comparison of outcome of inguinal hernia skin incision closure with staple versus subcuticular suture in pediatric patients

		Multan	
12.	Dr. Amna Idrees	Prof. Muhammad Ali Sheikh Professor of Paediatric Surgery Shaikh Zayed Postgraduate Medical Institute/Shah Zayed Hospital, Lahore	Frequency of surgical site infection in clean paediatric inguinal surgery with or without single dose antibiotic
13.	Dr. Yasir Sultan	Dr. Arslan Raza Wasti Professor of Paediatric Surgery Allama Iqbal Medical College/Jinnah Hospital, Lahore	Comparison of single port, laparoscopic, needle assisted, percutaneous repair versus open surgery of inguinal hernia in pediatrics age group
14.	Dr. Syed Shah Hassan	Prof. Nabila Talat Professor of Paediatric Surgery Unit-II Childrens' Hospital & Institute of Child Health, Lahore	Outcome of pre operative anal dilatations in Hirschsprung disease in prevention of iatrogenic pre operative anal tears
15.	Dr. Seemab Fatima		Comparison of outcome of vicryl rapide vs vicryl sutures for repair of tongue laceration in paediatric population
16.	Dr. Uzair Ahmed	Dr. Muhammad Bilal Mirza Assistant Professor of Paediatric Surgery The Children's Hospital & the Institute of Child Health, Lahore	Comparison of outcome of early vs delayed repair after reduction of incarcerated inguinal hernia in children
17.	Dr. Ihtasham Ul Haq		To compare the outcome of supportive treatment alone vs supportive treatment along injection sclerotherapy in patient with idiopathic rectal prolapse
18.	Dr. Farah Mushtaq		Comparison of outcome of vancomycin enema vs Normal saline enema in patients with Hirschsprung's associated enterocolitis
19.	Dr. Ehsan Riaz	Dr. Ejaz Ahmed Assistant Professor of Paediatric Surgery Services Institute of Medical Sciences/Services Hospital, Lahore	Comparison between single port versus two port laparoscopic inguinal hernia repair in children
20.	Dr. Urooj Hanif	Dr. Umar Hayat Assistant Professor of Paediatric Surgery Services Institute of Medical Sciences/Services Hospital, Lahore	Comparison of surgical results of ligation and non-ligation of hernial sac during orchidopexy in pediatric patients
21.	Dr. Laeeq Ahmed		Comparison between continuous versus interrupted suture urethroplasty in tubularized incised plate urethroplasty for hypospadias repair in children
22.	Dr. Ali Asad		Comparison of single incision scrotal Orchidopexy versus standard two incision inguinal orchidopexy children with palpable undescended testis
23.	Dr. Asim ur Rehman	Dr. Asif Iqbal Assistant Professor of Paediatric Surgery The Children's Hospital & the Institute of Child Health, Lahore	Comparison of "aesthetic appearance" after urethral mobilization and snodgrass procedure in hypospadias surgery using Hope Score.

UNIVERSITY OF HEALTH SCIENCES, LAHORE

Agenda of the Meeting of **Speciality Advisory Committee in Paediatric Surgery**, for review of MS synopses, to be held on **Friday, 6th August 2021** at **8:30 a.m.** in University of Health Sciences, Lahore.

AGENDA

Sr. #	Name of Candidate	Supervisor	Title
1.	Dr. Ghulam Mohy Ud Din	Dr. Asif Iqbal Assistant Professor Paediatric Surgery Unit-I Childrens' Hospital & Institute of Child Health, Lahore	Comparison of minimally invasive loop drainage versus standard incision drainage in pediatrics small skin abscesses: A randomized Control trial
2.	Dr. Asim Raza	Dr. Mehboob Ahmad Assistant Professor Paediatric Surgery Unit-I Childrens' Hospital & Institute of Child Health, Lahore	Comparison of outcome of autologous platelet rich plasma membrane plus dartos flap versus simple dartos flap in hypospadias surgery
3.	Dr. Muhammad Adeel Ashiq		Comparison of outcome of antibiotic coated Vicryl vs non-coated in abdominal fascial closure after laparotomy in children
4.	Dr. Abdullah Khan	Dr. Muhammad Bilal Mirza Assistant Professor Paediatric Surgery Unit-II Childrens' Hospital & Institute of Child Health, Lahore	The outcome of same admission stoma reversal vs conventional stoma reversal in children with temporary stoma
5.	Dr. Asim Shahzad		A RCT for comparison of honey dressing versus magnesium sulphate dressing in the management of infected wounds
6.	Dr. Salman Bajwa	Dr. Imran Hashim Assistant Professor of Paediatric Surgery Unit-I Childrens' Hospital & Institute of Child Health, Lahore	Comparison of outcome in early vs. conventional feeding after colostomy closure in Paediatric population.
7.	Dr. Laraib Amjad	Prof. Nabila Talat Professor of Paediatric Surgery Unit-II Childrens' Hospital & Institute of Child Health, Lahore	Comparison of early surgical outcomes of anoplasty vs limited posterior sagittal anorectoplasty in patients with low variety anorectal malformations
8.	Dr. Waqas Ahmed Yar		Therapeutic value of gastrografin in the management of pediatric adhesive small bowel obstruction, after unsuccessful conservative treatment
9.	Dr. Muhammad Jawad Afzal		Comparison of conservative management versus appendectomy in uncomplicated acute appendicitis in paediatric age
10.	Dr. Abdul Basit		Comparison of early vs conventional enteral nutrition in post laparotomy neonates
11.	Dr. Humaira Rasheed	Prof. Arslan Raza Wasti Head, Department of Paediatric Surgery Allama Iqbal Medical College/Jinnah Hospital, Lahore	Limited Urethral mobilization procedure (LUMP) versus Snodgrass repair for distal penile hypoplasia

12.	Dr. Wajeeha Chaudry	Prof. Khalid Mehmood Chaudry Faisalabad Medical University/Allied Hospital, Faisalabad	Comparison of catheter drainage with incision and drainage in children having soft tissue abscesses
13.	Dr. Hanan		Assessment of possible cases of manual reduction failure in incarcerated inguinal hernia in neonates and infants
14.	Dr. Ahsan Rehman		Comparison of high scrotal incision with standard inguinal incision orchidopexy in infants and children (age 9-18 months) with palpable undescended testes; A randomized Control Trial study
15.	Dr. Aleena Tahir	Dr. Muhammad Amir Hanif Assistant Professor of Pediatric Surgery Nishtar Medical University/Nishtar Hospital, Multan	Comparison of outcome of Lanz incision vs Gridiron incision of non-absorbable interrupted sutures wound closure technique in pediatric patients undergoing appendicectomy
16.	Dr. Tayyaba Naseer		Comparison between bone cutter and plastibell circumcision in neonates and infants
17.	Dr. Mavra Jamshed		A comparative study of local infiltration of wound with bupivacaine and intravenous paracetamol for pain relief in paediatric inguinal herniotomy surgeries
18.	Dr. Sayyam Bin Shakir	Prof. Mukhtar Hussain Professor of paediatric Surgery Multan	Comparison of Mathieu technique with midline incision of the urethral plate versus standard tabularized incised plate urethroplasty in primary repair of distal penile hypospadias in terms of complications
19.	Dr. Laraib Rasul	Dr. Mudassar Fiaz Gondal Assistant Professor of Pediatric Surgery Rawalpindi Medical University, Rawalpindi	Effectiveness of bowel management program in pediatric fecal incontinence
20.	Dr. Aymen Naeem	Prof. Muhammad Zubair Ahmad Head, Department of Paediatric surgery Quaid-e-Azam Medical College/Bahawal Victoria Hospital Bahawalpur	Comparison between conventional open technique and plastibell device for circumcision
21.	Dr. Farhat Iqbal	Prof. Mazhar Rafi jam Head, Department of Paediatric Surgery Sheikh Zayed Medical College/Shaiikh Zayed Hospital Rahim yar Khan	Comparison between the outcome of Bishop Koop versus double barrel stoma in cases of jejunal atresia
22.	Dr. Bilal khalid		Outcome of tube laparotomy vs exploratory laparotomy in patients with necrotizing enterocolitis
23.	Dr. Muhammad Imran Ameen		Comparison of effectiveness of incision and drainage vs percutaneous drainage of abscess in children

UNIVERSITY OF HEALTH SCIENCES, LAHORE

Agenda of the Meeting of **Speciality Advisory Committee in Paediatric Surgery**, for review of MS synopses, to be held on **Thursday, 12th August 2021** at **9:00 a.m.** in University of Health Sciences, Lahore.

AGENDA

Sr. #	Name of Candidate	Supervisor	Title
1.	Dr. Muhammad Usman Akram	Prof. Muhammad Saleem Professor of Paediatric Surgery The Children's Hospital & the Institute of Child Health, Lahore	Comparison of outcome of T tube ileostomy and Bishop Koop ileostomy for surgical management of uncomplicated meconium ileus
2.	Dr. Muhammad Ramzan Ejaz Rana	Dr. Mehboob Ahmad Bhutta Assistant Professor of Paediatric Surgery The Children's Hospital & the Institute of Child Health Lahore	Comparison of outcome of inguinal incision vs scrotal (Bianchi) incision for the repair of complete inguinal hernia in males: A Randomized Control Trail
3.	Dr. Qurat-ul-Ain Nisar		Comparison of outcomes of single versus double dartos layer for preventing fistula in tabularized incised plate repair of distal hypospadias
4.	Dr. Aysha Manzoor		Comparison of Duhamel pull through versus primary transanal endorectal pull through in patients of Hirschsprung's disease in terms of early functional outcomes
5.	Dr. Beenish Cheema		Comparison of outcome of routine daily anal dilatation versus weekly anal dilatations after posterior and anterior sagittal anorectoplasty
6.	Dr. Ali Imran		Dr. Imran Hashim Assistant Professor of Paediatric Surgery The Children's Hospital & the Institute of Child Health Lahore
7.	Dr. Nudrat Seemab		Comparison of second layer coverage with dartos fascia vs tunica vaginalis flap in tip urethroplasty: A Randomized Control Trail
8.	Dr. Asim ur Rehman	Dr. Asif Iqbal Assistant Professor of Paediatric Surgery The Children's Hospital & the Institute of Child Health, Lahore	Comparison of outcome of Snodgrass procedure versus urethral mobilization in distal hypospadias repair
9.	Dr. Noman Akbar Butt	Dr. Muhammad Bilal Mirza Assistant Professor of Paediatric Surgery The Children's Hospital & the Institute of Child Health, Lahore	Comparison of outcome of circumcision by bipolar electrocautery and other conventional techniques, A Randomized Trail
10.	Dr. Abdul Hafeez	Prof. Muhammad Kashif Chishti Professor of Paediatric Surgery The Children's Hospital & the Institute of Child Health Multan	Comparison of interrupted versus continuous suturing technique in tubularized incised plate urthroplasty (Snodgrass) in term of complications
11.	Dr. Waqas Ahmed		A Comparative study between surgical outcomes of ventriculoperitoneal shunt and endoscopic third ventriculostomy for obstructive hydrocephalus in children over 6 months of age

12.	Dr. Ghulam Muhammad Hasnain Iqbal		Comparison of complications with and without peritoneal drain after open appendectomy in children for complicated appendicitis
13.	Dr. Syed Tasdak Mehdi		Surgical site infection in appendectomy after subcuticular and interrupted wound closure in children from 4 to 14 years of age
14.	Dr. Rao Muhammad Akram		Comparison of single versus double dartos flaps in a tabularised incised-plate repair of distal hypospadias, in terms of fistula formation
15.	Dr. Aneeqah Liaquat		Comparison between Mitchell bank and modified Ferguson technique for inguinal herniotomy in children less than 2 years of age
16.	Dr. Saba Ahmad		Comparison between the outcome of primary versus staged PSARP in anovestibular fistula in terms of complications in female 6 months to 2 years of age
17.	Dr. Usama Ali		Comparison of outcome of closure versus non closure of peritoneum after open appendectomy in children with acute appendicitis at a Tertiary Care Hospital
18.	Dr. Hafiz Azhar Ali	Prof. Mazhar Rafi jam Head, Department of Paediatric Surgery Sheikh Zayed Medical College/Shaiikh Zayed Hospital Rahim yar Khan	Comparison of outcomes of neonatal circumcisions by using Gomco versus Plastibell techniques
19.	Dr. Sonita John		Comparison of frequency of wound infection in stoma reversal cases closed with purse string suture versus interrupted stitches on skin
20.	Dr. Rida Arshad	Dr. Muhammad Amir Hanif Associate Professor of Paediatric Surgery Nishtar Medical College/Nishtar Hospital Multan	Comparison of Paediatric appendicitis score vs ultrasound in diagnosis of acute appendicitis taking histopathology as gold standard
21.	Dr. Zahid Ahmad		Comparative study of open vs closed dressing technique for the management of burn wounds in children
22.	Dr. Amna Tahir	Prof. Muhammad Zubair Ahmad Professor of Paediatric surgery Quaid-e-Azam Medical College/Bahawal Victoria Hospital Bahawalpur	Comparison of single stage primary abdominoperineal anorectoplasty versus three staged (conventional) repair in patients with high variety anorectal malformation
23.	Dr. Fakhar-e-Jahan		A comparative study of trans-scrotal single incision orchidopexy with traditional inguinal method in children with palpable low-lying undescended testis in terms of operative time, cosmesis, re-assent

UNIVERSITY OF HEALTH SCIENCES, LAHORE

Agenda of the Meeting of **Speciality Advisory Committee in Paediatric Surgery**, for review of MS synopses, to be held on **Monday, 17th October, 2022** at **09:00 a.m.** in University of Health Sciences, Lahore.

AGENDA

Sr. #	Name of Candidate	Supervisor	Title
1.	Dr. Yasir Sultan (Sub Committee)	Prof. Arsalan Raza Wasti Professor of Paediatric Surgery Allama Iqbal Medical College/Jinnah Hospital, Lahore	Comparison of single port, laparoscopic, needle assisted percutaneous repair versus open surgery of inguinal hernia in females of pediatrics age group
2.	Dr. Asia Zafar		Role of beta HCG in treatment of undescended testes: A randomized clinical trial
3.	Dr. Sajawal Yousof (Sub Committee)	Prof. Muhammad Kashif Chishti Professor of Paediatric Surgery The Children's Hospital & the Institute of Child Health Multan	Comparison of descending divided colostomy with sigmoid loop colostomy in terms of complication in patient with anorectal malformation
4.	Dr. Iqra Bibi		Comparison of outcome of single stage and double stage repair in proximal penile hypospadias with moderate chordee in terms of complications
5.	Dr. Arif Munir		Impact on early postoperative complications with and without division of the azygous vein during surgical repair of esophageal atresia-tracheoesophageal fistula
6.	Dr. Muhammad Imran Ameen	Prof. Mazhar Rafi Jam Professor of Paediatric Surgery Sheikh Zayed Medical College/Sheikh Zayed Hospital, Rahim Yar Khan	Fistula rate and wound disruption rate in unilateral cleft palate repair with and without vomerine mucosal flap
7.	Dr. Mujahid Israr Sattar Randhawa	Prof. Khalid Mahmood Chaudhry Professor of Paediatric Surgery Faisalabad Medical University/Allied Hospital, Faisalabad	Comparison of vicryl (Polyglactin) versus polydioxanone (PDS) suture in hypospadias repair in terms of urethrocutaneous fistula development
8.	Dr. Muhammad Ahsen Aziz	Prof. Nabila Talat Professor of Paediatric Surgery Children's Hospital & Institute of Child Health, Lahore	Comparison of roman sandal vs modified jo burg technique for chest tube fixation in pediatric population

UNIVERSITY OF HEALTH SCIENCES, LAHORE

Agenda of the Meeting of **Speciality Advisory Committee in Paediatric Surgery**, for review of MS synopses, to be held on **Monday, 19th June 2023** at **09:30 a.m.** in University of Health Sciences, Lahore.

AGENDA

Sr. #	Name of Candidate	Supervisor	Title
1.	Dr. Sonita John	Prof. Mazhar Rafi Jam Professor of Paediatric Surgery Sheikh Zayed Medical College, Rahim Yar Khan	Comparison of continuous versus interrupted suture technique in primary cleft palate repair
2.	Dr. Sabeen Sahar	Dr. Ramzan Bhutta Associate Professor of Paediatric Surgery Quaid-e-Azam Medical College, Bahawalpur	Comparative study between early decortication versus tube thoracostomy in pediatric empyema
3.	Dr. Umair Atta	Dr. Irum Uzma Khalid Associate Professor of Paediatric Surgery Nishtar Medical University, Multan	Comparison between outcome of chimney enterostomy and Mikulicz enterostomy formation in patients of complicated meconium Ileus
4.	Dr. Atiya Gulraiz		Comparison of surgical outcomes between dismembered pyeloplasty with and without ureteral stenting in children with ureteropelvic junction obstruction
5.	Dr. Naveed Irshad	Dr. Hamza Sohail Assistant Professor of Paediatric Surgery Children Hospital & the Institute of Child Health, Faisalabad	Comparison of complications of circumcision by plastibell device technique in male neonates and infants
6.	Dr. Mehvish Mariam	Dr. Fatima Naumeri Associate Professor of Paediatric Surgery Services Institute of Medical Sciences, Lahore	Comparison of wound healing in children with wheel spoke injuries with conventional vs vac dressing
7.	Dr. Somia Ilyas	Prof. Muhammad Ali Sheikh Professor of Paediatric Surgery Sheikh Zayed Postgraduate Medical Institute, Lahore	Cyanoacrylate glue and absorbable sutures for skin closure in inguinal surgery in children
8.	Dr. Adeel Ahmed		Gain in stretched penile length after phalloplasty with & without penile traction in children
9.	Dr. Waqas Haider	Prof. Nabila Talat Professor of Paediatric Surgery University of Child Health Sciences, Lahore	Outcome of SSI in subcutaneous infiltration of antibiotics vs without antibiotics in pediatric population undergoing laparotomies
10.	Dr. Iqra Farooq	Dr. Imran Hashim Associate Professor of Paediatric Surgery University of Child Health Sciences, Lahore	Comparative therapeutic efficacy of table salt vs silver nitrate for the treatment of umbilical granuloma; a comparative experimental study
11.	Dr. Maria Munawar	Dr. Muhammad Bilal Mirza Associate Professor of Paediatric Surgery University of Child Health Sciences, Lahore	Outcome of management of infected laparotomy wound by re-stitching along with redivac drain or by secondary intention closure
12.	Dr. Anam Razzaq	Dr. Mehboob Ahmed Bhutta Assistant Professor of Paediatric Surgery University of Child Health Sciences, Lahore	Comparison of post-operative enterocolitis in patients with Hirschsprung's disease; soave vs Duhamel's pull through procedures

UNIVERSITY OF HEALTH SCIENCES, LAHORE

Agenda of the Meeting of **Speciality Advisory Committee in Paediatric Surgery**, for review of MS synopses, to be held on **Monday, 30th May, 2022** at **10:00 a.m.** in University of Health Sciences, Lahore.

AGENDA

Sr. #	Name of Candidate	Supervisor	Title
1.	Dr. Ehsan Riaz (Sub Committee)	Dr. Umar Hayat Assistant Professor of Paediatric Surgery Services Institute of Medical Sciences/Services Hospital, Lahore	Comparison between single port (using telescope only) versus two ports (using additional grasper), in laparoscopic needle assisted inguinal hernia repair in children
2.	Dr. Laeeq Ahmed (Sub Committee)		Comparison between continuous versus interrupted suture urethroplasty in tabularized incised plate urethroplasty for distil penile hypospadias repair in children
3.	Dr. Muhammad Qasim Sher Khan (Sub Committee)	Dr. Mehboob Ahmad Bhutta Assistant Professor of Paediatric Surgery Children's Hospital & Institute of Child Health, Lahore	Role of trans-anastomotic tube for postoperative management of congenital duodenal atresia and stenosis a randomized controlled trial
4.	Dr. Uzair Ahmed (Sub Committee)	Dr. Muhammad Bilal Mirza Associate Professor of Paediatric Surgery Children's Hospital & Institute of Child Health, Lahore	Comparison of outcome of early vs delayed repair after reduction of incarcerated inguinal hernia in children
5.	Dr. Ahsan Rehman (Sub Committee)	Prof. Khalid Mehmood Chaudhry Professor of Paediatric Surgery Faisalabad Medical University/Allied Hospital, Faisalabad	Treatment of labial adhesions in pediatric female patients (0-12 years) with manual separation and estrogen cream in terms of success rate and parent's satisfaction: A randomized controlled trial
6.	Dr. Bilal Khalid (Sub Committee)	Prof. Mazhar Rafi Jam Professor of Paediatric Surgery Sheikh Zayed Medical College/Sheikh Zayed Hospital, Rahim Yar Khan	Outcome of tube laparostomy vs exploratory laparotomy in patients with necrotizing enterocolitis
7.	Dr. Rao Muhammad Akram (Sub Committee)	Prof. Muhammad Kashif Chishti Professor of Paediatric Surgery The Children's Hospital & the Institute of Child Health Multan	Surgical site infection with or without suction drain in subcutaneous plane after stoma reversal in paediatric age group
8.	Dr. Nasir Iqbal (Sub Committee)		Comparative study of hypospadias repair by using polydioxanone (PDS) as historical control with ongoing repair by using polyglactin (VICRYL)
9.	Dr. Ali Asad (Revised)	Dr. Umar Hayat Assistant Professor of Paediatric Surgery Services Institute of Medical Sciences/Services Hospital, Lahore	Comparison of cyanoacrylate surgical adhesive glue vs non-absorbable suture in closure of surgical wounds in paediatric patients
10.	Dr. Faiza Ashraf	Dr. Mehboob Ahmad Bhutta Assistant Professor of Paediatric Surgery	Comparison between diamond-shaped duodenoduodenostomy and side-to side duodenojejunosotomy in treatment of

		Children's Hospital & Institute of Child Health, Lahore	duodenal atresia
11.	Dr. Sundas Yousaf	Dr. Muhammad Bilal Mirza Associate Professor of Paediatric Surgery Children's Hospital & Institute of Child Health, Lahore	Comparison of gum acacia vs zinc oxide for prevention of peristomal excoriation in paediatric surgery
12.	Dr. Ammar Waqas		Comparison of ASARP vs PSARP in the repair of recto vestibular fistula; dose flipping the patient affect the outcome? A randomized controlled trial
13.	Dr. Umair Arshad		Comparison of outcomes of one day vs three days gut preparation in patients undergoing colostomy reversal
14.	Dr. Muhammad Faisal		Comparison of linseed oil vs zinc oxide for prevention of peristomal excoriation in pediatric surgery; A Randomized Trial
15.	Dr. Muhammad Salman Ali	Prof. Nabila Talat Professor of Paediatric Surgery Unit-II Children's Hospital & Institute of Child Health, Lahore	Comparison of outcome of hydrostatic reduction of intussusception with normal saline versus mixture of normal saline plus olive oil in children. A randomized control trial
16.	Dr. Ahsan Ali Ghauri	Prof. Muhammad Saleem Professor of Paediatric Surgery Unit-I Children's Hospital & Institute of Child Health, Lahore	Comparison of peritoneal drainage with subsequent laparotomy vs primary laparotomy in pneumoperitoneum due to NEC
17.	Dr. Nishwa Khan	Prof. Mazhar Rafi Jam Professor of Paediatric Surgery Sheikh Zayed Medical College/Sheikh Zayed Hospital, Rahim Yar Khan	Outcome of primary vs two-stage procedure in the repair of rectovestibular fistula
18.	Dr. Hafiz Babar Ghafoor		Comparison between the outcome of tube ileostomy vs loop ileostomy as a temporary diversion procedure for typhoid enteric perforation
19.	Dr. Sana Zahid		Comparison between the outcomes of intrapleural streptokinase vs normal saline for the treatment of empyema
20.	Dr. Muhammad Mohsin Akhtar	Prof. Muhammad Kashif Chishti Professor of Paediatric Surgery The Children's Hospital & the Institute of Child Health Multan	Comparison of postoperative outcome after intraoperative peritoneal lavage in generalized peritonitis with normal saline versus normal saline with metronidazole in children
21.	Dr. Muzamil Saeed		Comparison of complications between early versus late stent removal after tabularized incised plate urethroplasty for distal penile hypospadias

UNIVERSITY OF HEALTH SCIENCES, LAHORE

Agenda of the Meeting of **Speciality Advisory Committee in Paediatric Surgery**, for review of MS synopses, to be held on **Monday, 31st January, 2022 at 10:00 a.m.** in University of Health Sciences, Lahore.

AGENDA

Sr. #	Name of Candidate	Supervisor	Title
1.	Dr. Saba Ahmad (Sub Committee)	Prof. Muhammad Kashif Chishti Professor of Paediatric Surgery The Children's Hospital & the Institute of Child Health Multan	Comparison of surgical outcome of anterior sagittal anorectoplasty with and without colostomy in anovestibular fistula in term of complications in female under 2 years of age
2.	Dr. Syed Tasadak Mehdi (Sub Committee)		Comparison of surgical site infection after complicated appendectomy with subcuticular and interrupted wound closure in children
3.	Dr. Muhammad Waqas (Sub Committee)		Comparison of pigtail catheter versus conventional chest drain for drainage of pleural effusion in terms of complications in children 01 to 12 years of age.
4.	Dr. Nasir Iqbal		Comparison of outcome of polydioxanone and polyglactin in distal penile hypospadias repair In terms of complications
5.	Dr. Muhammad Qasim Sher Khan	Dr. Mehboob Ahmad Bhutta Assistant Professor of Paediatric Surgery Children's Hospital & Institute of Child Health, Lahore	Role of trans-anastomotic tube for postoperative management of congenital duodenal atresia and stenosis: a randomized controlled trail
6.	Dr. Anum Asif	Dr. Imran Hashim Associate Professor of Paediatric Surgery Children's Hospital & Institute of Child Health, Lahore	A comparison of autologous platelet-rich plasma dressing versus conventional dressing for wound management in Paediatric population

UNIVERSITY OF HEALTH SCIENCES, LAHORE

Agenda of the Meeting of Speciality Advisory Committee in **Paediatric Surgery**, for review of MS synopses, to be held on **Friday, 30th August, 2024** at **10:00 A.M.** in, University of Health Sciences, Lahore.

Agenda

Sr. #	Name of Candidate & Session	Supervisor	Date/ Number of Submission	Title
1.	Dr. Sabeen Sahar 2020-21	Dr. Ramzan Bhutta Associate Professor of Pediatric Surgery Quaid-e-Azam Medical College, Bahawalpur	24-Jun-24/ 1	Comparative study between early decortication versus tube thoracostomy in pediatric empyema
2.	Dr. Mujahid Israr Sattar Randhawa 2020-21	Dr. Samreen Jamil Assistant Professor of Pediatric Surgery Faisalabad Medical University, Faisalabad	30-May-24/ 2	Comparison of clinical outcome in patients undergoing colostomy reversal without prior conventional bowel preparation versus with conventional bowel preparation: A randomized controlled trial
3.	Dr. Nisar Ahmad 2021-22	Dr. Amir Hanif Associate Professor of Pediatric Surgery Nishtar Medical University, Multan	30-May-24/ 1	Comparison of Post-Operative rate of complications between early and late removal of stent in snodgrass repair of distal penile hypospadias
4.	Dr. Hammad Manzoor 2022-23	Prof. Mazhar Rafi Jam Professor of Pediatric Surgery Sheikh Zayed Medical Rahim Yar Khan	27-Jun-24/ 1	Comparison of efficacy of pre-incisional subcutaneous gentamicin injection with gentamicin-saline wash for prevention of SSI in colostomy reversal wound in pediatric surgery
5.	Dr. Aizaz Haider Khan 2022-23	Dr. Muhammad Riaz Ul Haq Associate Professor of Pediatric Surgery Sahiwal Medical College, Sahiwal	15-Jul-24/ 01	Comparison of single stage sphincter sparing scarless procedure (5S) versus single stage anterior sagittal anorectoplasty (ASARP) for management of rectovestibular fistula (RVF).

UNIVERSITY OF HEALTH SCIENCES, LAHORE

Agenda of the Meeting of Speciality Advisory Committee in **Paediatric Surgery**, for review of MS synopses, to be held on **Wednesday, 11th December, 2024** at **10:00 A.M.** in, University of Health Sciences, Lahore.

Agenda

To Review Synopses of:

Sr. #	Name of Candidate & Session	Supervisor	Date/ Number of Submission	Title
6.	Dr. Farhat Iqbal 2018-19	Prof. Mazhar Rafi Jam, Prof of Pediatric Surgery, Shaikh Zayed Medical College, Rahim Yar Khan	27-Aug-24/ 4	Comparison of loop ileostomy vs santoli in patients with complicated meconium ileus
7.	Dr. Hina Khan 2021-22	Dr. Iram Uzma Khalid, Associate Professor of Paediatric surgery, Nishtar Medical University, Multan	16-Oct-24/ 1	Comparison of outcome of rectus sheath closure with continuous suture technique versus interrupted sutures technique among children undergoing emergency laparotomy
8.	Dr. Khadija Farooq 2022-23	Prof. Dr. Muhammad Kashif, Professor of Paediatrics Surgery, Children Hospital and Institute of Child Health, Multan	29-Oct-24/ 1	Comparison of hydrostatic reduction vs pneumatic reduction of uncomplicated intussusception in children
9.	Dr. Kainat Habib Chishti 2021-22	Prof. Dr. Muhammad Kashif, Professor of Paediatrics Surgery, Children Hospital and Institute of Child Health, Multan	29-Oct-24/ 1	A comparative study of supraumbilical curvilinear versus right upper transverse incision in infantile hypertrophic pyloric stenosis in terms of scar outcomes
10.	Dr. Naveed Haider Shah 2019-20	Prof. Muhammad Kashif, Professor of Paediatrics Surgery, Children Hospital and Institute of Child Health, Multan	29-Oct-24/ 2	A comparison of surgical outcomes in undescended testes with and without fixation in scrotum in pediatric age group
11.	Dr. Sidra - Tul-Muntha 2022-23	Prof. Dr. Muhammad Kashif, Professor of Paediatrics Surgery, Children Hospital and Institute of Child Health, Multan	11-Nov-24/ 1	Comparison of furrow and von langenbeck's techniques for cleft palate repair in terms of post-operative complications

12.	Dr. Zofshan majeed 2021-22	Prof. Dr. Muhammad Kashif, Professor of Paediatrics Surgery, Children Hospital and Institute of Child Health, Multan	11-Nov-24/ 1	A comparative study between surgical outcomes of laparoscopic pyeloplasty vs open pyeloplasty in the treatment of ureteropelvic junction obstruction in children from 1 to 6 years of age
13.	Dr. Hira Saeed 2022-23	Prof. Dr. Muhammad Kashif, Professor of Paediatrics Surgery, Children Hospital and Institute of Child Health, Multan	12-Nov-24/ 1	Comparison of effectiveness of metronidazole solution with saline solution in preventing wound infection after complicated appendectomy in children
14.	Dr. Rida Arif 2021-22	Dr. Muhammad Bilal Mirza, Associate Prof. of Paediatric Surgery, Children Hospital and Institute of Child Health, Lahore	14-Nov-24/ 1	Comparison of therapeutic effect of 0.5% timolol vs 30% hypertonic saline in the treatment of umbilical granuloma in infants
15.	Dr. Saleha Komal 2021-22	Prof. Mazhar Rafi Jam, Professor of Paediatrics Surgery, Sheih Zayed Medical College, Rahim Yar Khan	15-Nov-24/ 1	Comparison of preputial skin graft vs vascularized preputial skin flap in chordae release in stage 1 urethroplasty in patients with hypospadiasis
16.	Dr. Ali Raza 2022-23	Dr. Rao Riaz Ul Haq, Associate Professor of Paediatric Surgery, Sahiwal Medical College, Sahiwal	21-Nov-24/ 1	Comparison of extra mucosal interrupted anastomosis vs full thickness continuous anastomosis ileostomy closure in paediatric age group

Note:

*All proposed Supervisors who do not have Supervisory Certificate as per UHS eligibility criteria are requested to complete their deficiencies mandatorily within **six months**, failure of which may lead to deferral of synopsis of their candidate(s) in the subsequent submission.*

UNIVERSITY OF HEALTH SCIENCES, LAHORE

Agenda of 6th of Meeting of Speciality Advisory Committee in **Paediatric Surgery**, for review of MS synopses, to be held on **Thursday, 15th May, 2025** at **10:00 A.M.** in, University of Health Sciences, Lahore.

Agenda

To Review Synopses of:

Sr. #	Name of Candidate & Session	Supervisor	Date/ Number of Submission	Title
17.	Dr. Zil E Huma 2022-23	Dr. Muhammad Ramzan Bhutta, Associate Prof. of Paediatric Surgery, QAMC, Bahawalpur	24-Jan-25/ 1	Early postoperative complications: circumplast ring vs standard plastibell ring for infant male circumcision
18.	Dr. Mujahid Ali 2021-22	Dr. Hamza Sohail, Institute of child health, Faisalabad	24-Jan-25/ 1	Comparison of mean time of return of peristalsis and time of feeding in children of ileostomy reversal patients with and without nasogastric tube placement
19.	Dr. Nisar Ahmad 2021-22		29-Apr-25/ 2	Comparison of the effectiveness of ERAS protocol (Enhanced recovery after surgery) versus traditional care in paediatric abdominal surgery
20.	Dr. Ali Raza 2022-23	Dr. Rao Riaz Ul Haq, Associate Professor of Paediatric Surgery, Sahiwal Medical College, Sahiwal	4-Mar-25/ 1	Comparison of single-port laparoscopic internal ring closure and percutaneous drainage of congenital hydrocele versus open herniotomy in pediatric age group
21.	Dr. Huma Imtiaz 2022-23	Dr. Fatima Naumeri, Associate Professor of Paediatric Surgery, Services Institute of Medical Sciences, Lahore	3-Mar-25/ 1	Effect of mobile phone video games on preoperative anxiety and post-operative pain in children undergoing elective surgery

Note:

*All proposed Supervisors who do not have Supervisory Certificate as per UHS eligibility criteria are requested to complete their deficiencies mandatorily within **six months**, failure of which may lead to deferral of synopsis of their candidate(s) in the subsequent submission.*
